

# The Generator COVID-19 Safety Plan

We are following all orders, guidance and notices of WorkSafeBC, the BC CDC and the Provincial Health Office.

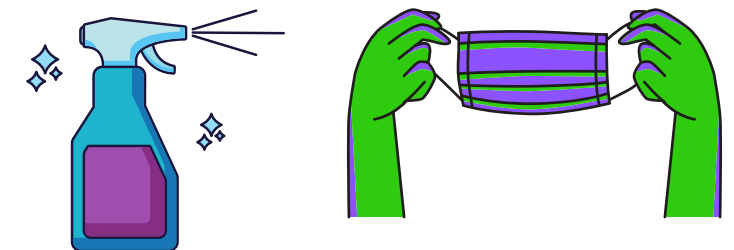

We are limiting office capacity and have arranged seating to ensure 2m of physical distancing between work stations.

## Stay home if...

- You have recently **traveled**.
- You are feeling **unwell**.
- You have come in contact with anyone who is feeling unwell or has been

## Office sanitization and person hygiene...

- We are **disinfecting high touch spots** throughout the day and our nightly cleaners are conducting extensive disinfecting procedures. Meeting rooms are being sanitized after use.
- Please **clean your hands** and use hand sanitizer when you arrive to the office and throughout your day. Hand sanitizer, hand washing stations and disinfectant are provided throughout the office.
- Sharp Plasmacluster Ion **air purifiers are placed around The Generator**. The technological approach is similar to ozone purification but leverages H and O ions from the plasmacluster to inactivate viruses and bacteria
- **Avoid touching your face** and cover your coughs and sneezes. **Wear a mask when in open spaces.**
- **Clean** all communal items that you are using.

## Limit interactions...

- Follow **posted capacities** for kitchen/bathrooms/hallway.
- Ensure you practice **physical distancing of 2 m+**.
- Only use **non-contact greeting methods**
- Use **video conferencing** instead of face-to-face meetings.
- Follow the posted meeting room **capacity procedures**.
- Limit all non-essential guests. Guest contact details will be required.
- Each office may be **occupied by 1 primary person** with up to 1 other person joining temporarily for short meetings.
